INTRODUCTION

The Arizona Community College System began in 1960 when the Arizona Legislature adopted Chapter 119, which provided for junior college districts throughout the state. In 1971, the name was changed to "Community College" System.

The purpose of establishing a statewide system of junior college districts was not only to provide educational facilities in localities where students resided but to relieve the load on existing state universities created by the increasing demand for higher educational opportunities.

A State Board of Directors was appointed to oversee the system. This State Board consists of 14 members appointed by the Governor for seven-year terms. There are also three other members on the Board -- a representative of the Board of Regents, the Superintendent of Public Instruction, and the director of the Division of Vocational Education.

STATEMENT OF PHILOSOPHY

The philosophy of the Arizona community college system is a reflection of the purpose of a free democratic society: government of, by and for the people. This can best be achieved by an educated populace so that all may exercise intelligently and morally the rights, privileges and duties of self-government. This entails the affirmation that each individual has worth and dignity, must be afforded an opportunity to develop skills and talents, and must share the responsibilities of providing educational services with the community.

Further, the philosophy recognizes that education is a vital lifelong process that -- like the society to which it responds -- is never static nor completely realized. Education in a democratic society aims to equip all members with the knowledge and techniques necessary for coping with the economic, social and political dynamics affecting not only the individual but also the community.

It is therefore appropriate that the individual, the community and the state should share the financing and governance of the community college system. At the district level, fiscal and educational policy can be determined by local needs. At the state level, it is imperative to establish standards, and to assess and coordinate needs and services in the best interest of the state.

Because the communities in Arizona differ widely in demographic, economic and geographical characteristics, the community colleges of Arizona must be permitted relative autonomy and a variety of curricula. But each community college must be committed to the following general objectives:

1. To offer the first two years of baccalaureate parallel or preprofessional courses of the highest quality, so that students enrolled in transfer programs may complete study for the baccalaureate in four-year colleges and universities.

2. To provide occupational programs in technical, vocational and paraprofessional fields leading to an associate degree or a certificate, and to provide retraining and upgrading of skills in these fields, so that students enrolled in occupational programs are qualified to meet current needs of the labor market.

3. To provide appropriate general education for all citizens, so that they may perform their personal and professional roles more effectively, and exercise their obligations and privileges as citizens more intelligently.

4. To offer programs in continuing education for those who wish to improve professional skills, acquire new ones, or expand their fields of knowledge and general interest.

5. To provide sound academic and occupational counseling, including job placement services, so that students may learn to define their goals clearly and pursue them realistically.

6. To provide cultural and community service programs for the enrichment of the community, and to encourage the use of community college facilities and services by all citizens of the community for educational and cultural purposes.

Finally, a democratic society prizes and values individual differences. The role of the community college is to encourage men and women of all ages to develop their skills and talents differently, each according to abilities and interests, so that collectively they contribute to the continuum of democracy.

Vocational Education

Arizona's community colleges have accepted the role of serving as major manpower training agencies. This includes training youth and adults for gainful employment in those occupations that require some type of postsecondary training but something less than a bachelor's degree.

The following statistics were obtained from the Department of Education, Division of Vocational Education. THESE FIGURES ARE COMPILED ACCORDING TO SPECIFIC FEDERAL REQUIREMENTS AND, THEREFORE, WILL NOT COINCIDE WITH PREVIOUSLY REPORTED ENROLLMENT FIGURES.

During the 1982-83 fiscal year, community colleges in Arizona reported the following number of enrollments in vocatonal-technical credit courses. This unduplicated count indicates one student counted only once whether enrolled in one or several courses.

Federal Funds

Fiscal Year 1982-83

Federal funds allotted to Arizona for vocational education support instruction for people of all ages in all communities and in all occupations requiring less than a bachelor's degree. Federal vocational funds allotted to our community colleges were used to provide supplementary services that do not generate state financial support but fall within the area of responsibility of our community colleges. These include noncredit courses for out-of-school youth and adults, career counseling and placement services, exemplary programs conducted on a pilot basis, in-service teacher training clinics and workshops, research, work-study programs for needy youth, and individual tutoring or other help to the handicapped and disadvantaged. Federal funds were expended by county as follows:

District	Federal Funds*	State Funds	Total Vocational Education Funds
Cochise	$ 201,495	$ 3,080	$ 204,575
Graham	58,274	---	58,274

Yuma/La Paz	66,212	---	66,212
TOTAL VOCATIONAL	$2,255,493	$96,953**	$2,352,446***

* Federal funds include unexpended fiscal year 1981-82 federal funds, but included in the 1982-83 program budgets.

** Exludes $813,100 awarded to the State Board of Directors for Community Colleges for allocation to the three (3) skill enters in the state.

*** Vocational funds were allotted directly to community colleges by the State Board of Vocational Education.

Skill Centers

Another dimension of postsecondary education may be experienced at one of Arizona's Skill Centers. There are three centers, located in Maricopa, Pima and Pinal counties. These centers are unique operations that have existed in Arizona since 1962. Their purpose is to train unemployed and underemployed persons for entry or re-entry into the labor market. Even though each Skill Center is responsible to the local community college district, they maintain a great degree of autonomy.

Skill Centers do not require a high school diploma for entry although students are encouraged to take advantage of the tutoring and testing available for a General Education Diploma (GED). In order to be truly responsible to the needs of students, the open-entry/open-exit concept is utilized. Students may enroll on any day of the week, and they receive their certificates of completion the day they are "job-ready." At the Gila River Skill Center in Pinal County, dormitory facilities are available for students, as well as an extensive recreational area.

Listed below are some of the training clusters offered at one or more of Arizona's Skill Centers:

Agriculture
Auto Body and Painting
Auto Engine Repair
Auto Mechnics

CURRICULA MATRIX FOR ARIZONA'S COMMUNITY COLLEGES

FALL 1983 - SPRING 1984

The following curricula matrix includes all academic and vocational programs offered by Arizona's community colleges during the academic year 1983-84. This matrix indicates the type of degree or certificate awarded at the completion of each program. The approximate length of time required to complete each certificate program is also shown.

This matrix is in conformance with Standard I (formerly Standard II) of the Rules and Regulations adopted on October 23, 1976, by the State Board of Directors for Community Colleges of Arizona. Standard I defines credit versus noncredit courses in terms of objectives, approvals, time and credit, syllabus specifications, success criteria, instructors, admissions, administration, grading, and funding.

Degrees, Certificates, or Licenses

Associate of Arts - This is a college transfer degree and is recommended for students who plan to complete the first two years of a baccalaureate program at the community college. Because the first two years of a baccalaureate program vary considerably among curriculums and institutions, it is usually necessary to design the course work for this degree to satisfy the curriculum outlined in the catalog of the university to which the student intends to transfer.

Associate of Applied Arts - This degree is awarded to students who complete requirements of a specified two-year program.

Associate of Science - This is a college transfer degree and is similar to the Associate of Arts degree, except that the student's major emphasis is in science or engineering course work.

Associate of Applied Science - This degree is awarded to students who complete the requirements of a specified two-year program.

Associate of General Studies - This degree is awarded to students who complete an approved two-year planned program in general studies.

Certificate - A certificate is awarded to students who have completed an approved vocational program. The length of time necessary to complete certificate programs varies depending upon the achievement of the technical skills and competence necessary in a specific program.

License - A license is awarded to students who have completed a program of study approved by the licensing agency. These programs vary according to the specific licensure requirements.
